5 Add an **"Organization"** from the hamburger menu.

≡ EnGenius

🔍 Search

Add organization

▾ 🏢 EnGenius Technologies, Inc

    EnGenius United States

    EnGenius Canada

▸ 🏢 Org

6 Add a **"Network"** within your **"Organization"**.

Note: After **"Organization"** and **"Network"** are created configure **"SSID's"** and **"Radio Settings"** .
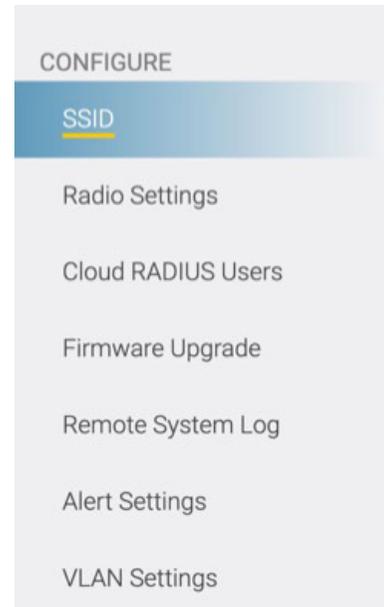

7 ⚙ Be sure that you double-click on the network name to display the **"Configure"** icon. A yellow underline will display under the network name.

Choose **"CONFIGURE"** from the sidebar menu to add a SSID.

a. Select the **"SSID"** menu to configure a SSID.
b. Add SSID **"+ Add SSID"**
c. Create SSID name via **"Wireless"** menu
d. Select security under **"Security Type"**
e. Click **"Apply"** to save changes

Note: Any access point that is assigned to this network will take on the configurations of this SSID.
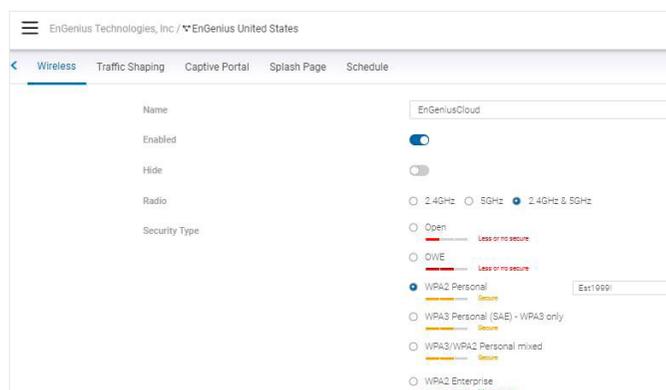

Note: Once the **"SSID"** is created and configured, Radio Settings can be configured.
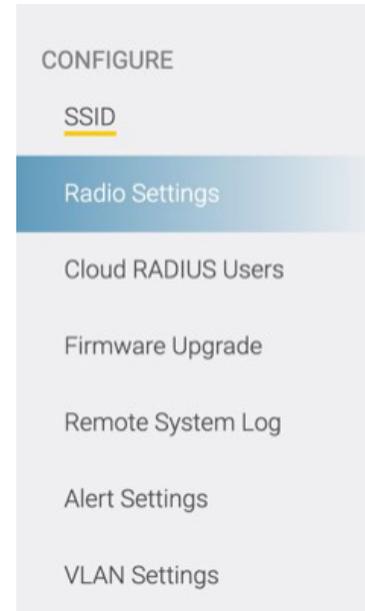

8 ⚙ Choose **"CONFIGURE"** from the sidebar menu to configure radio settings. Select the **"Radio Settings"** menu to configure radio settings.

Use best practices when configuring radio settings.

Note: Congratulations, initial cloud setup is complete. Devices, cloud access points and switches can be registered.
